SUNRISE RESOURCES PLC
("Sunrise" or the "Company")

AIM REACH ANNOUNCEMENT **11 November 2026**

Garfield & Stonewall Royalties

Sunrise Resources plc ("Sunrise" or the "Company") notes today's announcement by Guardian Metal Resources plc ("GMET") of the proposed spin-out of its non-tungsten exploration portfolio into a new company ("Spin-Co"), with the intention of seeking admission of Spin-Co to trading on AIM ("Admission") by the second quarter of 2027.

Guardian has stated that the assets that are currently expected to form part of Spin-Co include its Garfield, Golconda Summit and Stonewall projects in Nevada, USA.

Sunrise holds a 2% royalty over key parts of GMET's Garfield and Stonewall Projects.

Patrick Cheetham, Executive Chairman, commented:

"GMET's proposed spin-out of Garfield and Stonewall should see increased exploration and investor interest in these projects and bring the value of our royalty interests into sharper focus.

"To-date GMET has put most of its non-tungsten efforts into the Garfield Project where Sunrise made the original discovery and where GMET has identified additional mineralised structures and alteration within our royalty area. We consider Garfield to have high potential for the discovery of epithermal gold-silver and porphyry copper mineralisation with a new porphyry copper discovery being reported nearby by Canadian explorer VR Resources Ltd.

"We look forward to further news on these two projects over the next few months.

"Alongside Garfield and Stonewall our Crow Springs Project royalty and the potential buy-out and 2.5% NSR royalty at Jackson Wash Project provide Sunrise with multiple opportunities for future royalty income and capital value."

Further details on the Company's royalty interests were given in a news release of 2 September 2026.
