

SUNRISE RESOURCES PLC

AIM Announcement

20 November 2015

SUNRISE RESOURCES PLC ("the Company")

COMMENT ON SHARE PRICE MOVEMENT

Sunrise Resources plc, the AIM-traded diversified mineral exploration and development company, notes the recent weakness in the Company's share price and advises the market that it is not aware of any undisclosed reason for this decline.

The Company draws attention to its most recent exploration update on 22 October 2015 advising that high grades of silver mineralisation were hit in all three Phase 1 drill holes at the Company's Bay State Silver Project in Nevada and that high grades were also intersected outside the known vein system, indicating the potential for additional discoveries.

The Company looks forward to updating shareholders on various of its projects in due course. It expects to release its audited results for the year ended 30 September 2015 next month.
