

SUNRISE RESOURCES PLC

AIM Announcement

23 September 2014

**SUNRISE RESOURCES PLC
("the Company")**

**EXPLORATION UPDATE
AUSTRALIAN GOLD PROJECTS**

Sunrise Resources plc, the AIM traded diversified mineral exploration and development company ("the Company"), is pleased to provide the following update on exploration of its two gold projects in the Murchison Goldfield of Western Australia.

Corona Gold Project

- Soil sampling programme now in progress
- Approx. 525 samples being collected on 200m by 200m offset grid
- Results should be available in approximately 6 weeks

Baker's Gold Project

- Soil sampling programme to commence within 2 weeks
- Approx. 575 samples to be collected on 200m by 100m offset grid with 100x50m sampling over certain areas of higher interest
- Results expected in approximately 8 weeks
- Application made for prospecting licence adjoining west side of project targeting gold bearing quartz-stockwork at historic Dickey Lee Gold Mine

Commenting today, Executive Chairman Patrick Cheetham said: "The main objective of our soil sampling programmes is to add targets to those already set for testing in the first drill programmes which we hope to carry out later this year. We will look to fast track the grant of the Dickey Lee licence application by including it in the existing Aboriginal Heritage Agreement as this also presents a drill-ready target."
