

BRIBERY & ANTI-CORRUPTION POLICY

The Sunrise Resources' Group seeks to operate ethically and with integrity and does not tolerate any form of corruption.

The purpose of this policy is to ensure that Sunrise Resources plc (the "Company") and its subsidiaries (the "Group") have appropriate systems and procedures in place to prevent bribery and other forms of corruption.

This policy sets out the principles behind the Group's Bribery & Anti-corruption Code of Conduct which is designed to ensure that appropriate ethical conduct is applied across its activities throughout the world.

This policy is also designed to ensure that the Group applies appropriate steps to comply with its ethical standards and the law.

This Policy and the Bribery & Anti-corruption Code of Conduct, has my full support and that of my fellow directors and officers, and forms part of the induction of new employees and, where appropriate, onboarding of contractors and business partners.

Patrick Cheetham

SUNRISE RESOURCES PLC

ANTI CORRUPTION POLICY

Responsibilities:

- a. The Company has implemented a Group-wide Bribery & Anti-corruption Code of Conduct and will continue to publicise this code internally, on its website and with its business partners. A “business partner” includes joint venture partners, consortium partners, suppliers, sub-contractors, contractors, consultants, advisers, agents and other intermediaries.
- b. The Board of Directors is responsible for the effective design, implementation and operation of the Bribery & Anti-corruption Policy. The Board will ensure that management is aware of and accepts the Policy, and that it is embedded in the Group’s corporate culture.
- c. This Bribery & Anti-corruption Policy and the Executive Chairman's statement of personal support for the Bribery & Anti-corruption Policy will be published on the Company's website.
- d. The Executive Chairman will be responsible for ensuring that systems are in place to prevent corruption and a Compliance Officer will be appointed with sufficient authority to monitor all Policy activities and is required to report any suspicious activity to any Board member of their choice. The Compliance Officer will have direct access to the Executive Chairman and to the Audit Committee.
- e. The Company’s Audit Committee will ensure that the Group’s Financial Controls minimise the risk of a Group company committing bribery or engaging in corrupt practice against a business partner, individual or organisation, or of any form of bribery or corrupt practice being committed against the Group by a business partner, individual or organisation.
- f. The Company's Audit Committee will carry out an annual internal review of the Bribery & Anti-corruption Policy, regularly monitor its effectiveness and will make appropriate recommendations to the Board concerning revisions to the Policy and whether its procedures and controls are adequate to minimise those risks.

Procedures:

1. Employee and Employment Contracts:

- Employees, particularly those in management positions, or other posts where corruption may be an issue, will be vetted before they are employed to ascertain as far as is reasonable that they are the type of person who is likely to comply with the Group’s Bribery & Anti-corruption Policy.
- Future employment contracts will include contractual obligations and penalties in relation to corruption.

- All new employees will be informed of the Group's Bribery & Anti-corruption Code of Conduct to ensure that they understand it and the importance of complying with it.
- Existing employees are required to sign up to the Bribery & Anti-corruption Code of Conduct and to any future revisions thereof.
- Employees are required to declare any conflict of interest. The Executive Chairman will monitor any potential conflicts of interest that may increase the risk of corruption.
- Disciplinary procedures entitle the Company to take appropriate disciplinary action against a director, officer or employee who is in breach of the Bribery & Anti-Corruption Code of Conduct. These procedures are specified in all new employment contracts.
- Caution will be taken in the provision of performance bonuses and performance targets to ensure that there are adequate safeguards to prevent bonuses and targets resulting in corrupt practices.

2. Risk Assessments:

Risk assessments will be carried out taking into account the following general areas of risk:-

Country risk
Sectorial risk
Transaction risk
Business opportunity risk e.g. high value projects
Business partnership risk

in order to identify any potential areas for problems and these will be reviewed on a regular basis.

3. Gifts, Hospitality and Donations:

The Group's Bribery & Anti-corruption Code of Conduct establishes guidance on giving or receiving gifts, hospitality and donations, together with acceptable limits.

The Compliance Officer maintains accurate records, available for inspection, which details gifts, hospitality and donations.

The Company monitors compliance with its Policy so as to avoid anything that is disproportionate and contrary to local laws.

4. Trading in Shares:

The Company has implemented a Share Dealing Code, as required by the London Stock Exchange, which prohibits share dealing by any director, officer or employee without the permission of the Company. Compliance with this Code is mandatory for all directors, officers and employees.

5. Training and Communications:

This Policy and the Bribery & Anti-corruption Code of Conduct are communicated to all directors, officers and employees. In those countries where risk assessment suggests it is appropriate, this Policy and Code of Conduct will be communicated to all business partners, contractors, etc.

The Company provides anti-corruption training on the Bribery & Anti-corruption Code of Conduct upon recruitment and on a suitably regular basis to all relevant employees to make them aware of the different types of corruption, the risks of engaging in corrupt activity, together with procedures for reporting corruption.

Employees receive relevant training on how to implement the Policy in relation to their particular sphere of activity.

6. New Ventures and Activities:

Before entering into any material business relationship, transaction or project the Company will carry out due diligence on the country in which the business is to be conducted (if it has not operated in that country before), on its potential business partners (in countries where corruption is known to be a risk), and on the proposed project or business transaction in order to identify as far as possible the risk of corruption. Due diligence will be continued on an on-going basis during the project so that changes and new information can be properly assessed. Particular attention will be paid to any arrangements with any consultants or agents.

7. Publication of Code of Conduct to Business Partners:

The Group will ensure that its business partners are aware of the Bribery & Anti-corruption Policy and Code of Conduct and endeavour to ensure that all material contracts state that the business partners will comply with the Policy and Code of Conduct.

8. Anti-corruption Contract Terms:

All contracts between Group companies and their business partners, in any country where risk assessment suggests it is appropriate, will contain anti-corruption terms which provide express contractual obligations and penalties in relation to corruption.

9. Commercial Controls:

The Company will ensure, through its Bribery & Anti-corruption Code of Conduct, that its commercial controls minimise the risk of a Group company committing an act of corruption against a business partner, individual or organisation, or of an act of bribery and corruption being committed against the Group by a business partner, individual or organisation. These commercial controls include appropriate procurement and supply chain management and appropriate signing authorities.

10. Reporting Procedures:

The Company has established internal procedures for reporting bribery in a confidential manner to a director or officer of the Company.

11. Investigating and Dealing with Corruption:

All investigations will be conducted by the Compliance Officer, a director or an officer of the Company.

12. Keeping Records:

The Company has established feedback mechanisms in order to maintain accurate records - available for inspection - which document all financial transactions, gifts, hospitality and donations. Internal control systems will be subject to regular audits to provide assurance that they are effective in countering bribery and corruption.
